

In Harelbeke I started my sprint too late this time, unfortunately, I began my rush too early.

In fact I tried to anticipate my rivals because I knew Boonen is in a great shape: but they were able to catch me, then the Belgian rider proved to be the best in this kind of courses. It´s a pity because the team was great today, again we did a great race, so I wanted to take a good result for them too: anyways, we´re strong and if we continue this way I´m sure we can win some prestigious competitions
